how many documents need customer signature?

how many applications collect customer ID data?

how many documents need to be collected from customer?

how the bank is collecting the customer other documents?

how the bank is converting the collected documents to E-forms documents?

AIS Digital Print

is your solution for quick movement, deployment, and conversion to digital printing

Digital Printing

Smart printing conversion from physical to digital print

Digital Print is a smart driver.

Digital Print convert physical print out from any system to digital print.

Digital Print is plug and play software can work with any system, zero coding / integration.

Digital Print collect and merge other Documents in PDF.

Digital Print collect customer ID Info (Card Reader, QR).

Digital Print Send through/to Emails, WhatsApp and archive.

AIS Digital Print

Will convert your printing environment from paper printing environment to digital printing environment.

Why
Digital Printing Solution?

- Extend current systems with Digital features without need of any changes Eliminate the generating cost of physical documents (printer, papers and inks)
- Reduce Risk
- Support the organization in Achieving Think green environment.
- Eliminate the operation cost of physical documents (Transporting , Scanning , Archiving)
- Enhance customer service time & quality
- Allow the bank to align with government procedures for COVID-19 and minimize dealing with physical papers.

Ex: ROI

1

Organization Size

50	400	400,000
Branch	User	Customer

Pilot Deployment for 1 Year

2

Factors

No of Printers

Printer Maintenance

Ink

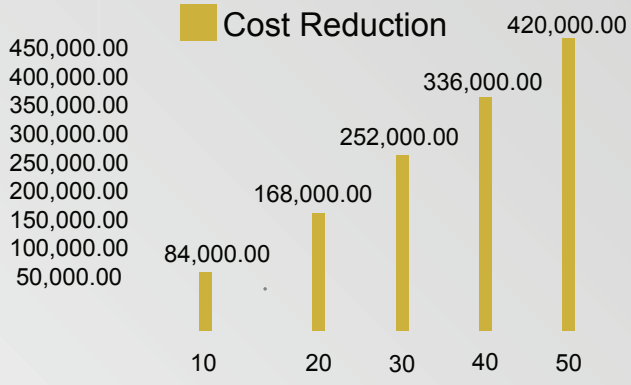
Paper

Transportation

Scanners and microfilm

3

Cost Reduction Vs Branches



4

AIS Digital Print
is the solution to decrease

70%

of your printing costs.

ROI and Saving calculated based on yearly cost against the Digital Print Cost.
